OBJECTIVE

Seeking a Software Development Internship to apply my knowledge of C++, Data Structures Algorithms, and Web Development while enhancing my technical skills through real-world projects and contributing effectively to the organization.

EDUCATION

Madras Institute of Technology, Anna University

Chennai, Tamil Nadu

Bachelor of Technology in Information Technology

2024 – 2028

- **CGPA:** 9.80/10

Kingston Matric Higher Secondary School

Tiruvannamalai, Tamil Nadu

Higher Secondary

2024

- **Percentage:** 97.5%

PROJECTS

Developer Portfolio Website | *React.js, HTML5, CSS3, JavaScript*

July 2026

- Developed a responsive personal portfolio website using React.js.
- Built reusable React components for Home, About, Skills, Projects, Resume, and Contact sections.
- Implemented responsive layouts for desktop, tablet, and mobile devices.
- Showcased technical skills, projects, education, and coding profiles through a modern user interface.
- Deployed the portfolio website using Vercel.

Marathon Event Website | *HTML5, CSS3, JavaScript*

2025

- Developed a responsive marathon event website using HTML5, CSS3, and JavaScript.
- Implemented DOM manipulation and event handling for interactive user experience.
- Designed registration forms and responsive web pages.

Railway Reservation System | *MySQL*

2025

- Designed a relational database for railway reservation management.
- Implemented SQL queries including INSERT, UPDATE, DELETE, SELECT, and JOIN operations.
- Applied normalization concepts to maintain data consistency.

CERTIFICATIONS

- Full Stack Development Workshop
- Python for Data Science – NPTEL (SWAYAM)
- Basic Computer Course

ACHIEVEMENTS

- CGPA: 9.80/10 in B.Tech Information Technology at Madras Institute of Technology, Anna University.
- Higher Secondary Examination: 97.5%.
- Actively solving Data Structures and Algorithms problems on LeetCode.

TECHNICAL SKILLS

Programming Languages: C, C++, Java (Basic), JavaScript

Frontend: React.js, HTML5, CSS3, Responsive Web Design, DOM Manipulation

Database: MySQL, MongoDB (Basic)

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Standard Template Library (STL), Problem Solving

Tools: Visual Studio Code, Git, GitHub
